## Controller with color touch screen for ALPHA-laboratory freeze dryers

Easier handling with improved "intuitive to use" - menu structures

- data storage on USB memory
- detailed message information
- operation structure like LSC
- different scale units °C/°F, mbar/hPa
- access-protection by password
- integration in network structures
- multi language user interface
- PC based simulation available

The application of new forward-looking technologies - the use of a high performance digital signal processor, a high resolution colored TFT-display and the touch functionality – give the space for an easy future upgrade of functions and features.

New ideas and experiences of customers, distributors and our own research group can be smoothly embedded. The coloured touchscreen and the improved „intuitive to use“ - menu structures provide an optimum selection of different functions.

### Summary of features:

- colored touch screen with mimic diagram
- „one screen“-summary of set values
- graphical summary of programs, similar to LPC-32-software
- program templates for different products
