BASF increases prices for resins and additives in Europe

01.02.2011 - Effective immediately, BASF increases prices in Europe for resins and additives for the coatings, printing and packaging industries by 5 - 12 % as existing contracts allow. The price increase affects, but is not limited to, the following product ranges: Laromer®, Joncryl®, Basonat®, Luwipal®, Luhydran® and Acronal®.

The price adjustments are necessary mainly due to further significantly increased costs of key raw materials.
